EDUCATION

KIET GROUP OF INSTITUTION
GHAZIABAD

2023-2027

CERTIFICATES

- AWS Cloud Practitioner
- Oracle , MongoDB , Python
- Infosys
- Data Analytics course certificated

WORK EXPERIENCE

Faculty Recruitment Management System

Developed a full-stack web application to digitize and automate faculty hiring workflows, including **online applications, document verification, approval tracking, and compliance checks**. Implemented dashboards for **analytics, role-based access control, and notification alerts**, improving transparency and efficiency in the recruitment process.

Labour Hub

Labour Hub is a web-based platform designed to seamlessly connect laborers with job providers. The website features **two main interfaces**: a client side for **workers to register, browse available jobs**, and apply for work, and **an owner side where employers can post job listings**, view worker profiles, and hire suitable candidates. Built to streamline the hiring process, Labour Hub makes **it easy for laborers to find reliable work and for employers to quickly connect with skilled workers**. The platform emphasizes simplicity, usability, and efficient communication between both parties.

SKILLS
